REASONS FOR ALLOWANCE

1. Claims 81-111 are allowed over the prior art of record.
2. Claims 1-80 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: The Applicant arguments filed on 1/10/2007 with respect to claims 88-111 are persuasive. The feature of independent claims 81, 96, and 107 directed towards allowable subject matter is the protrusion in contact with a stationary planar surface for measurement of position or force, in combination with a device or method providing haptic feedback. As argued by the Applicant the prior art of record, Hannaford, US Patent No. 5642469, teaches of haptic feedback and the measurement of position and force, however fails to teach of a sensor having a stationary planar surface and a protrusion that moves with respect to the stationary planar surface. Further, none of the other prior art of record suggests or teaches of the claimed invention. Therefore said features of claims 81, 96, and 107 in combination with the other limitations of the claims makes claims 81-111 allowable over the prior art of record.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **David L. Lewis** whose telephone number is (571) 272-7673. The examiner can normally be reached on MTWTHF from 8 to 5.
 5. If attempts to reach the examiner by telephone are unsuccessful, the
